

Optegra SOUTH Outcomes Data For NHS Cataract Surgery

In addition to the Optegra group data within the 2021-2022 Quality Report, we are pleased to share with you the specific outcomes data for our hospitals in the Optegra South region. The data below captures clinical outcomes from NHS cataract procedures from January 22 to September 22.

We are proud of the excellent clinical outcomes being achieved across all our hospitals in the South of England. This is testament to the dedication and care of our clinical teams across each hospital and clinic. We welcome the opportunity to work with you and provide NHS cataract care to your local patients.

Kathryn Bryant, Regional Director, Optegra South
