

Dear Colleague

EMMS Healthcare has been awarded the contract to provide the Electronic eye referral system (E-ers) in the BLMK region and I am writing to introduce ourselves. We have met with the LOC representatives and are grateful for their help and support with the initial steps needed to help implement the E-Ers.

The aim of the E-ers is to provide a seamless end to end electronic referral pathway - from optometry practices to hospital departments - this achieved using an online web-based platform, called EyeV.

We would like to demonstrate the system to you and will be holding a series of open sessions, which you would be most welcome to attend. The sessions are virtual, will start at 7.00pm and last for approx. 30-45 mins - the dates are below and to register for a session please go to www.eyev.health.

25th April 22

28th April 22

3rd May 22

4th May 22

If you have any questions before the events or would like an earlier demonstration, please get in touch with any of our team

Kind regards

Adam Holliday adam@eyev.health
