

Seeing Through the Fog 'One patients' journey'  
3-point interactive peer review CPD event for Optometrists  
Thursday 9<sup>th</sup> February 18:30 – 20:30

---

Newmedica Plymouth would like to invite you to participate in our upcoming 3-point CPD event which will be held at:

**Newmedica Plymouth**  
**Forder House**  
**20 William Prance Road**  
**Derriford**  
**Plymouth**  
**PL6 5WR**

This will be an interactive peer review session covering the topic of **'Seeing through the fog. One patient's journey with cataracts.'**

This interactive peer discussion considers one patients' journey with the most common age-related eye condition: Cataracts.

Dealing with many aspects of modern cataract pathways, this session will encourage delegates to discuss examination techniques, management and timely referral of a patient who develops cataracts over time whilst challenging their understanding of communicating in a patient-centred way.

Comparison of regional variations of cataract service provision will also help to appreciate some of the difficulties our patient face to access care.

**Timings:**

**18:30** The doors will be open for registration, welcome drinks, light buffet and tour of the new facilities.

**19:15** Event will commence with an introduction to Newmedica Plymouth led by Amanda Worley, Operational Director, followed by the CPD session presented by Mr Tomas Cudrnak, Consultant Ophthalmologist and Clinical Partner

The event will conclude by 20:30

Seats are limited, so please book your place promptly [HERE](#)

If you have any queries, please contact [jennifer.lewis@newmedica.co.uk](mailto:jennifer.lewis@newmedica.co.uk)
