What will you learn at this event?

This session will explore current perspectives in glaucoma, with a focus on Primary Angle Closure Disease, including PACS, PAC and PACG.

You'll gain practical guidance on identifying patients at risk, assessing the anterior chamber angle, understanding key management options and making appropriate referrals.

The event will also cover common eyelid and orbital conditions, including signs to look out for, when these can be managed in practice and when referral to an oculoplastic surgeon is recommended.

Why attend?

- Earn 1 CPD point at a free in-person evening event
- Hear practical updates from experienced ophthalmology consultants
- Enjoy canapés as you network with local optometry colleagues
- Tour Benenden Hospital's Eye Unit

Benenden Hospital is CQC rated Outstanding, with high patient satisfaction rates and a 0% rate of MRSA infections.
