To find out if your 2018 computer runs Windows 10 version 1803 or newer?

Note 1: This is usually true for Windows 10 models dating from the year April 2018 onwards

Check your version by either of these two methods:

- 1. Holding the 'Windows key and the R key' to open the Run command. Then type 'winver' in the box. Then click OK.
- Or
