

Glaucoma Repeat Intraocular Pressure (IOP) Measurements

Appendix 3

North East Lincolnshire CCG has a repeat IOP measurement service only.

This is for anyone with IOP measured with either Contact or Non-Contact tonometry to have a repeat measure for IOP over greater than or equal to 24mmHg as per NICE guidance.

Participating practices are as below:

Please refer a patient stipulating name, contact details, initial IOP, and any relevant details to the practice who can referral refine the patient.

This is an appointment only service and cannot see self-referrals. Only IOP or suspect Glaucoma findings referred after a routine Sight test or CUES/CORRS.
